## Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. CSE	Anurag University, Telangana	8.96	2022 -26
12th	CBSE Board	81.4%	2022
10th	CBSE Board	87%	2020

# Summary

Motivated and dependable Computer Science student with strong technical and problem-solving skills. Experienced in software development, Front-End and Back-End technologies, and database management. Passionate about creating impactful solutions and contributing to innovative projects.

# **Experience**

Software Development Engineer Intern Nov. 2024 - Dec. 2024 Web Development Project

- Developed a user-friendly web application for IPO-related information.
- Designed responsive UI using HTML, CSS, JavaScript, and Bootstrap.
- Managed and queried structured data using PostgreSQL.

## **Projects**

Neural Shortener

live demo

## Supabase, PostgreSQL, JWT, Vite

### Full-Stack URL Shortener React, Tailwind CSS,

- Built a responsive React + Tailwind CSS frontend with a 95/100 mobile usability score.
- Created a real-time analytics dashboard tracking 10,000+ click events for user insights.
- Secured user data with authentication and role-based access using Supabase and JWT.
- Used Vite for fast development and optimized builds.

Schedulr Source Code

### Meeting Scheduling Platform Next.js, React, PostgreSQL, Prisma, Clerk, Google APIs, Tailwind CSS

- Built a full-stack scheduling app with automated booking for 100+ concurrent users.
- Integrated Google Calendar API & OAuth for meeting creation and calendar sync.
- Designed responsive UI with Tailwind and implemented real-time availability checks to prevent double bookings.
- Developed secure authentication with Clerk and role-based access control.
- Modeled PostgreSQL database with Prisma for complex booking and user relationships.

### **Technical Skills**

- \*Programming: C/C++, Java, Python
- Development: HTML, CSS, JavaScript, SpringBoot, MERN Stack
- Databases:MySQL, PostgreSQL
- \*CS Fundamentals: Data Structures and Algorithms, OOPs, Operating System

# Certifications

- Google AI-ML Virtual Internship (AICTE Cohort-8)
- AWS Academy Cloud Foundation (AICTE Cohort-9)
- Google Generative AI Certification
- CISCO Python Essentials 1&2
