Summary

Motivated Computer Science student with strong technical and problem-solving skills. Experienced in software development, Front-End and Back-End technologies, and databases. Passionate about impactful solutions and innovative projects.

Education

B.Tech. Computer Science, Anurag University, Telangana — *CGPA: 8.96   2022 – 2026*

12th Standard, CBSE Board — *81.4%   2022*

10th Standard, CBSE Board — *87%   2020*

Experience

Software Development Engineer Intern — *Nov 2024 – Dec 2024*
Bluestock Fintech

- Developed a web application for IPO-related information
- Designed responsive UI with HTML, CSS, JavaScript, Bootstrap
- Managed structured data with PostgreSQL

Full Stack Web Development Intern — *July 2025 – Aug 2025*
Future Interns

- Completed internship in Full Stack Web Development
- Built responsive frontends and integrated with backends
- Collaborated with a team to deliver production-ready features and deployments

Projects

Neural_Shortener — Full Stack URL Shortener — *Live Demo*
React • Tailwind CSS • Supabase • JWT

- Built responsive React + Tailwind CSS frontend with 95/100 mobile usability score
- Real-time analytics dashboard tracking 10,000+ click events
- Secured user data with Supabase, JWT, and role-based access

Schedulr — Meeting Scheduling Platform — *Source Code*
MERN Stack • Google Calendar API • OAuth

- Full-stack scheduling app supporting 100+ users
- Integrated Google Calendar API OAuth for meeting sync
- Real-time availability checks prevent double bookings

Technical Skills

Programming: C/C++, Java, Python
Development: HTML, CSS, JavaScript, SpringBoot, MERN Stack
Databases: MySQL, PostgreSQL
CS Fundamentals: Data Structures & Algorithms, OOP, OS

Certifications

- Google AI-ML Virtual Internship (AICTE Cohort-8)
- AWS Academy Cloud Foundation (AICTE Cohort-9)
- Google Generative AI Certification
- CISCO Python Essentials 1 & 2
